PROFESSIONAL SUMMARY: Junior Security Analyst | SOC Analyst I Role

Highly motivated and results-driven **Cybersecurity Analyst** with a foundation in **Security Operations, Threat Detection, and Incident Response**. Actively engaged in a **90-Day SOC Analyst Sprint**, leveraging a self-built **SOC Home Lab** to gain hands-on experience in **SIEM Alert Triage, Log Analysis, Threat Hunting, and Malware Analysis** within real-world simulated scenarios.

TECHNICAL SKILLS

- **Security Operations: SIEM Monitoring & Alert Triage** (Splunk), **Incident Response** (Containment, Eradication, Recovery), **Threat Hunting** (MITRE ATT&CK Framework), **Log Analysis** (Windows Event Logs, Sysmon, Network Logs), Vulnerability Management.
 - **Tools & Platforms: Splunk Enterprise** (Local Deployment, SPL, Dashboards, Alerts), **Sysmon**, **FakeNet-NG**, Wireshark, Ncat, Volatility 3, EZ Tools, CyberChef, Ubuntu/Linux CLI, pfSense Firewall, TryHackMe, Blue Team Labs Online, Atomic Red Team.
 - **Networking:** TCP/IP, DNS, VPNs, Firewalls, Network Troubleshooting, Packet Analysis.
 - **Scripting:** PowerShell, Bash Scripting (AWK, SED).
 - **Compliance & Risk:** Information Security Standards (NIST, ISO 27001 understanding), Risk Assessment, Documentation.
-

CERTIFICATIONS

- **Splunk Core Power User Certification:** *Targeted for July 2026*
 - **Microsoft SC-200 Certification:** Targeted for October 2026
 - **TryHackMe SOC Learning Path:** 2025
 - **CompTIA CySA+ (Cybersecurity Analyst):** 2024
 - **CompTIA PenTest+:** 2024
 - **Certified Ethical Hacker (CEHv11):** 2024
 - **CompTIA Security+:** 2024
 - **CompTIA Network+:** 2024
 - **CompTIA A+:** 2024
-

EDUCATION

University of Houston – Main Campus, C. T. Bauer College of Business | *Spring 2027*

- **BBA: Management Information Systems, Specialization: Information Systems / Information Security**
- **Lone Star College System**, North Harris | Houston, TX
- **Associates of Business Administration** | Spring 2020

TECHNICAL PROJECTS & LABS SOC Home Lab: Multi-Node Malware Analysis & Detection Platform |

[GitHub: 90-Day-Junior-Analyst-Sprint](#)

- **Architected and deployed** an isolated virtual SOC environment (pfSense firewall, Windows FLARE-VM, Ubuntu Desktop/Forensics workstation).
- **Configured Splunk Enterprise** on FLARE-VM for **real-time ingestion and analysis** of **Sysmon** host telemetry and **FakeNet-NG** network interception logs.
- **Performed Static/Dynamic malware analysis** on various samples (e.g., SillyPuTTY, Emotet), identifying **HBIs** (process injection, persistence via registry/scheduled tasks) and **NBIs** (C2 callbacks on non-standard ports).
- **Developed custom Splunk SPL queries** to detect specific malware behaviors, mapping findings to the **MITRE ATT&CK Framework**.
- **Conducted memory forensics** using **Volatility 3** on infected VMs to uncover hidden processes, network connections, and in-memory strings.
- **Documented comprehensive Incident Reports** detailing attack chains, IOCs, and remediation strategies.

Blue Team Labs Online (BTLO) | [GitHub: BTLO Write-Ups](#)

- **Executed multiple "Easy" and "Medium" difficulty SOC investigations**, simulating real-world alert triage scenarios.
- **Utilized industry-standard tools** (Wireshark, Splunk, Event Viewer, Linux CLI) to analyze provided artifacts (PCAPs, web logs, event logs).
- **Practiced incident response procedures**, including log correlation, threat actor identification, and root cause analysis.

EXPERIENCE

American Cruise Lines: Dining Server, Housekeeping, Deck Hand Assistance | *April 2025 - Oct 2025*

- Demonstrated exceptional composure, problem-solving, and efficient service in high-pressure operational environments, ensuring guest satisfaction and maintaining strict operational standards.
- Managed concurrent tasks and critical deadlines in a fast-paced environment, enhancing problem-solving and adaptability.

The Sunrise House/Koya of Strickland Hospitality

| *April 2023-April2025*

Dining Server – Breakfast/Mediterranean

- Be the master of the menu, understanding the details to enhance the conversation.
- Guide guests on their culinary journey through descriptive selling of the menu

Trattoria Sofia/B.B. Italia Bistro of Berg Hospitality

| *Sept 2021-June 2023*

Dining Server – Rustic Italian Style

- Provide superior hospitality services, primarily serving cuisine and beverages, in addition, contributing to the experience of the diners by describing the dishes and paring recommendations.
